

STUDENTS SHARING ACROSS THE GLOBE

Precious Talent's plans

The school was visited by Government Education Officers who have ordered them to provide upgraded dormitories for the boarders.

Ann Mireri, Director Precious Talent Academy, is very concerned as without the upgrade she may not be able to offer boarding in 2019. This would severely reduce her student numbers and impact the school economically.

Sponsorship

There are many students at Precious Talent who are in a vulnerable position and may have to stop their schooling. Please consider sponsoring a child.

New Toilets for girls at Precious Talent Academy

Early in 2018 the girls' toilets at Precious Talent Academy collapsed and subsided into the pit below making them unsafe and totally unusable. A temporary pit was dug with a makeshift privacy screen.

Majura Primary School, ACT came to the rescue and funded the construction of new toilets. When the GSP Australia team visited in July the pit was dug and the ground prepared and now the toilets are complete and in use.

Christmas presents for sponsored students

The sponsor children received their Christmas presents! They were very happy to receive their new dresses and some food supplies for their families.
