TRANSPARENCY POLICY - 2020

Global School Partners facilitates partnerships between schools in Australia and schools in developing nations to enable students from across the globe to connect, share and learn with one another. In addition, we encourage Australians to support our work through sponsorship of students and funding of school projects and programs.

Our aim is to work collaboratively with community groups (schools) and individuals, to achieve mutually agreed goals that build capacity to both alleviate poverty through education and better health and raise awareness of how education can overcome poverty.

We inform students and school communities in Australia about the culture and circumstances experienced by students in their partner school in the developing country. We empower Australian students to make a positive, direct and tangible difference in the lives of students at their partner school.
