

STUDENTS SHARING ACROSS THE GLOBE

Precious Talent's plans

Currently we have new girls' toilets being built, the old ones collapsed into the pit. The school needs more dormitories to accommodate all the students wanting to board.

Sponsorship

There are many students at Precious Talent who are in a vulnerable position and may have to stop their schooling. Please consider sponsoring a child.

Precious Talent welcome us

GSP took a team of 5 teachers and 3 health professionals to Kenya in July and we visited schools and provided 2 days of professional development for all the teachers and first aid officers in our partner schools.

The teachers spent some time in class with the students at Precious Talent and had such fun.

"GSP visits are a joy for the school and the students get very excited to see Simon and the team again" says Madam Ann Mireri, Director of Precious Talent Academy.

Philippa explains the earth at Precious Talent

We gave each school a globe, the children were fascinated having never seen the earth shown in this way – great geography lesson!

Precious Talent

"I was deeply honoured when the school initiated me as a Masai in a special ceremony" - Simon Carroll, CEO GSP. (above left)

The new roof donated by Majura Primary School looks fantastic and the students and staff are delighted with the result. (above centre)

"We would like to express our sincere gratitude to the community of Majura primary for supporting us and helping us to move forward" says Madam Ann.
