Help us to help the children at Saf haven Children's Home

Kenya Update

How is Corona Virus affecting Kenya?

36,157 - Confirmed Cases
23,067 - Recovered
622 – Deaths

With limited testing some reports say COVID cases could be as high as 1 million.

The COVID restrictions have created severe financial hardship.

Money for food for scholarship students at Safe Haven

After floods, locust plagues, drought and now COVID-19 a famine is looming in East Africa, including Kenya, South Sudan, Ethiopia and Somalia.

Lonah Maiko, our GSP Program Officer, says “Most people around depend on food from their farms. They sell and get money to buy other basic needs. The closure of markets has meant closure of their businesses.”

GSP scholarship student's families recently received money for food – a huge thank you to our sponsor families who are helping these communities through this very difficult time.

Safe Haven has faced a huge challenge just to survive in 2020

Saf haven must provide hand washing stations with soap, sanitiser, face masks and enough beds to enable physical distancing between children.

Steve says “We are really struggling because the cost of food is so high, we find it difficult to feed all the children. In fact some have had to leave for now.”

Safe Haven are in desperate need of new sponsors for children in their home.
