## School report

There was a great progress from all the children in areas of education and talent exploration. From pp1 to high school I can say this year has been the BEST!

Primary children were able to participate in music, Drama, soccer and athletics but the ones who went far are the music and drama troupe who went all the way to National level and came 3rd. Through that exploit we were able to receive congratulatory trip to Nakuru national reserve all paid by Bridge Academies.

At the end of the third term our children topped in every class they are in right from Felix in PPI to Clinton in grade 6. and they received so many awards but the top five were taken to all paid expenses trip to Kisumu to enjoy.

The high school students also did amazing work, Dadius came top in form two, Vincent came second in form one and all of our high students progressed to next classes. Next year 2020 we will have two form fours, 3 form threes, four form twos and 5 form ones. We are waiting for result of 5 grade eights and we pray they excel.

Music group with mama Margy

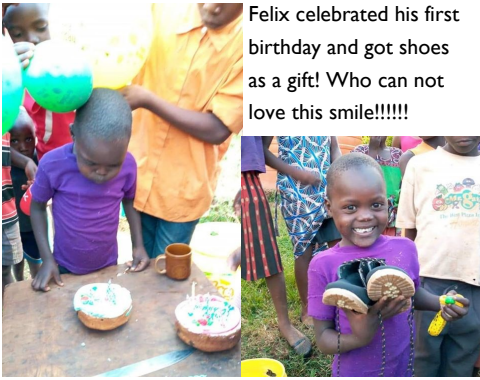

Davies came top in grade 5 and became overall top student in school

## New baby in the home

Meet Edward 5 years old, he was abandoned by the mother immediately after giving birth, he was rescued by an old granny who has so many challenges. We took him to public hospital baby care after his health became worse and he was treated and retained to regained. This year we were handed his full responsibility

He will join school next year he is healthy and happy

Felix celebrated his first birthday and got shoes as a gift! Who can not love this smile!!!!!!

Vincent and Dadius being awarded for being top students.

Kids having good time in Kisumu

We have models in future- Brenda

From the green land of Kisii we say you our Family

Having someone to  
*love* is FAMILY.  
Having somewhere to  
*go* is HOME.  
Having both is a  
*Blessing.*

We thank God that we have you in our lives, your support has enabled us pay fees for all GSP sponsored children and even provide food to them and the rest for the monthly support that came to us.

We were able to grow food in our farms thanks to Hellen for your continued love and support we were able to feed the kids all through the school period Asante sana!

The children are healthy and doing well and enjoying around which is good.

#### CHALLENGES

We have 5 students joining form one in the year 2020 only three have a sponsor we are reaching out for help we hope the two will be able to go to school.

With too much rains our well collapsed and now we need to get the guys to remove silt and clean it and get out the pump and cement it from down there to prevent future scenes.

The government is on our head to support the kids we have in our homes from foster homes in future which is 2020 we are on with the

discussions to see how this will work.

#### ASANTE SANA

Global school partners

Our beloved sponsored

Our friends

We look forward to achieve a lot with you in making this world a better place for all children.
